

Microsoft Remote Desktop for Mac Instructions

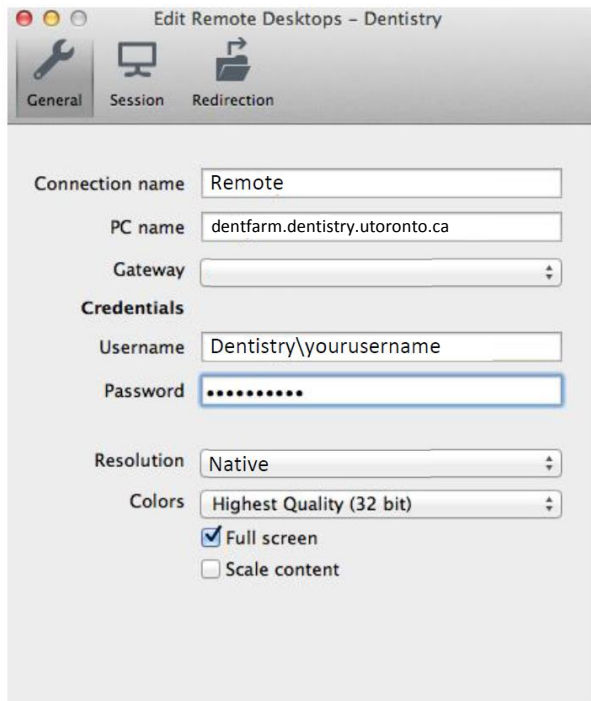

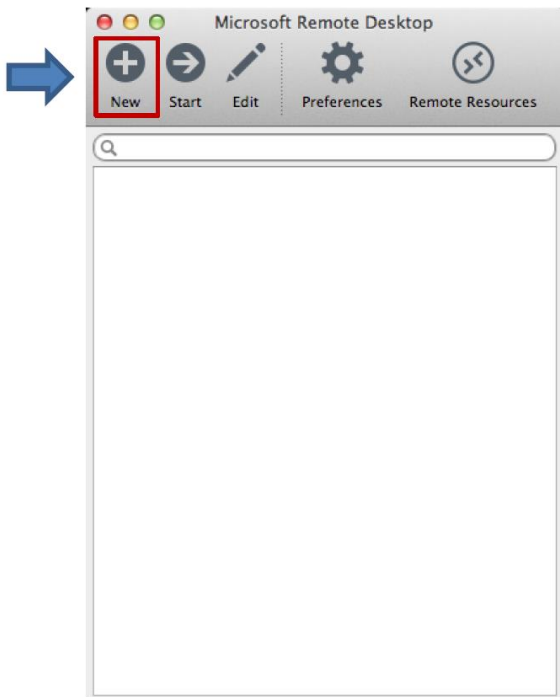

Step 1: Download the free Microsoft Remote Desktop App from the Mac App store and install it on your computer as directed. The App can be found here:

<https://itunes.apple.com/us/app/microsoft-remote-desktop/id715768417>

Step 2: Open Microsoft Remote Desktop, click on *New* and when the *Edit Remote Desktops Dialog Box* opens enter the following information in this order:

1. **Connection Name:** Remote (Or any name you decide)
2. **PC name:** dentfarm.dentistry.utoronto.ca
3. **Username:** dentistry\yourusername
4. **Password:** yourpassword
5. **Gateway:** Click on the dropdown arrow and choose "Add Gateway"

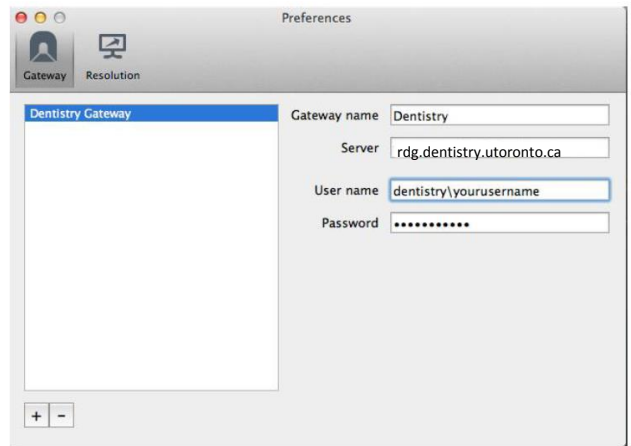

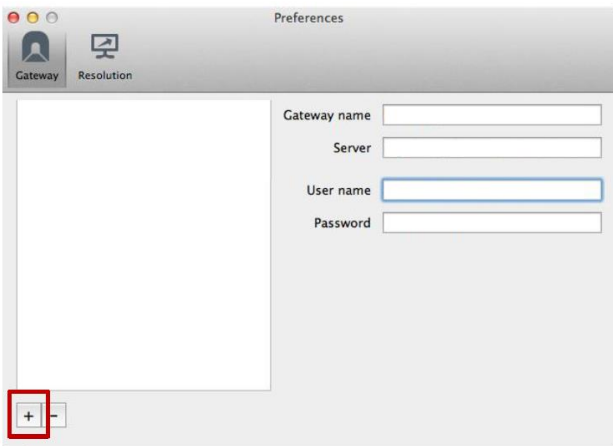

- 1.
- 2.
- 5.
- 3.
- 4.

Microsoft Remote Desktop for Mac Instructions (cont'd)

Step 3: When the *Gateway Preferences Dialog Box* opens press the plus sign in the lower left hand side and add the following information to the fields on the right:

1. **Gateway Name:** Dentistry (Or any name you decide)
2. **Server:** rdg.dentistry.utoronto.ca
3. **Username:** dentistry\yourusername
4. **Password:** yourpassword

Step 4: Close the *Gateway Preferences Dialog Box* and then close the *Edit Remote Desktops Dialog Box*

- 1.
- 2.
- 3.
- 4.

Step 5: The Remote Desktop Connection you created will now be listed in the *Microsoft Remote Desktop Dialog Box*. Double-click on it and after a few moments a connection will be established and a Windows Session will begin using your Dentistry credentials. Use Windows as you would on your Dentistry computer. To end the session just choose *Log Off* from the *Windows Start Button* in the lower left.
